Vestige launches MACH-DRIVE NanoEnergizer

Vestige Marketing has launched MACH-DRIVE NanoEnergizer, engine oil additive to reduce emissions and boosts engine performance. The platinum ceramic coating in it protects engine, reduce fuel consumption by 15% and reduce harmful emission by up to 70%.

MACH-DRIVE NanoEnergizer is compatible with petrol, diesel and CNG engines and for two/three and four wheelers. It is a revolutionary technology, which improves the engine efficiency for the next 30,000-40,000 kms.

Gautam Bali, MD, Vestige Marketing, said, "With this new product launch, we have embarked upon a journey to make a contribution to saving the environment. The lockdown brought the pollution levels significantly down. We must do our best to protect the environment and our new product, MACH-DRIVE NanoEnergizer, is Vestige's initiative towards that."

As per data, approximately 1.4 crore two-wheelers and 44 lakh cars are sold every year. With the use of MACHDRIVE NanoEnergizer, approximately 20% CO₂ emission can be reduced. Its single time coating lasts up to 30,000-40,000 kms and keeps the engine almost as good as new. (MT)

Vestige Marketing launches high-tech automotive products

NEW DELHI, JUNE 18 : Vestige Marketing Pvt. Ltd., one of India's leading direct selling companies that provides hygiene, health and wellness products, has launched the first of their new portfolio of automotive products. The company launched MACH-DRIVE NanoEnergizer, an engine oil additive that will enhance the longevity of the engine, reduce engine drag, friction and noise. It uses a unique and revolutionary technology, which contains 20 Nano Metre Platinum Coated Zirconium powder emulsified in mineral oil. The platinum ceramic coating helps protect the engine, bring down fuel consumption by upto 15 % and reduce harmful emission by upto 70%. This is ideal for engine restoration and protection.

MACH-DRIVE NanoEnergizer is compatible with petrol, diesel and CNG engines and for two/three and four wheelers. It is a revolutionary technology, which improves the engine

efficiency for the next 30,000-40,000 kms.

Commenting on the launch, Gautam Bali, MD, Vestige Marketing Pvt Ltd said, "Our strength is our health and wellness portfolio. With this new product launch, we have embarked upon a journey to make a contribution to saving the environment. The lockdown brought the pollution levels significantly down. We must do our best to protect the environment and our new product, MACH-DRIVE NanoEnergizer, is Vestige's initiative towards that. The revolutionary product can cut vehicle emissions down by 70%." As per data, approximately 1.4 cr two-wheelers and 44 lakh cars are sold every year. With the use of MACHDRIVE NanoEnergizer, approximately 20% CO2 emission can be reduced. MACH-DRIVE NanoEnergizer's single time coating lasts upto 30,000-40,000 kms and keeps the engine almost as good as new. This technology helps in saving atleast 15% fuel.
